EDUCATION

Bachelor in computer application

[Tribhuvan university](#)

2022 - 2026

PROJECTS

1. Aspiration Asia Admin Panel

<https://admin.aspirationasia.com>

A streamlined admin dashboard for managing travel packages, trips, bookings, itineraries, and customer reviews. It allows admins to upload images, update content, track trip details, manage destinations, and handle user reviews—all from a clean and efficient interface designed for travel businesses.

2. Lost & Found System

Under development

It is an mobile application designed to help people report, find, and recover lost items within their community. The app allows users to quickly post lost or found items with details and images, making it easier for others to identify and return to the owner.

3. Futsal booking System

github.com/bibek-b/Futsal-Booking-System

The Futsal Booking System is a web application where users can check available time slots, reserve futsal courts, and manage their bookings easily. It streamlines the entire scheduling process and gives admins full control to manage reservations, pricing, and daily operations.

EXPERIENCE

React Developer (Internship)

[Aspiration Asia Pvt Ltd](#)

2025 Bhaktapur, Nepal

A Travel & Tour Based Company

SUMMARY

I am a full stack developer experienced in building Scalable and secure web and mobile applications. I work with node JS with express for backend, and React JS with Tailwind for frontend or using NEXT JS for full stack building, creating seamless user experiences. I also implement real-time features with socket.io.

I develop cross-platform mobile apps using React native allowing users to use the app on any mobile platform With seamless user experience & strong security.

Key Skills:

Frontend: React JS, React Native, Tailwind CSS, JavaScript(ES6+), API Integration, NEXT JS

Backend: Node JS, Express JS, NEXT JS REST APIs, Sockets, JWT

Mobile Development: React Native, Expo

Deployment: Vercel, Netlify

Databases: MongoDB, MySQL, Oracle db

Security: Penetration Testing (Web + App), BurpSuite, Linux
